### NOTES:

1. As-built drawings will be submitted within 30 days of completion of this project to the Louisiana Department of Natural Resources, Office of Conservation, Pipeline Division, P. O. Box 94275 Baton Rouge, LA 70804, and to the Louisiana Department of Natural Resources, Coastal Management Division, P. O. Box 44487, Baton Rouge, LA 70804-4487.
2. Structures must also be marked/lighted in accordance with U. S. Coast Guard regulations.
3. In order to ensure the safety of all parties, the permittee shall contact the Louisiana One Call System (1-800-272-3020) a minimum of 48 hours prior to the commencement of any excavation (digging, dredging, jetting, etc.) or demolition activity.
4. Create terraces over 26.23 acres which will be planted with plugs, single springs, and/or trade gallon containers of smooth cordgrass ( *Spartina alterniflora* ) or other acceptable vegetation. Planting rows will be located on the mean high water and mean water lines of the terraces.
5. Permission from Louisiana Wildlife and Fisheries must be obtained to utilize 26.23 acres of WMA area.
6. The current project levee permit request number is COE (MVN 2010-01631-WWJ) and CMD (P20100642).
7. Proposal to construct 25,168 linear feet of terraces (in varying lengths) in order to mitigate for the unavoidable impacts to 32.46± acres consisting of brackish to saline marsh (10 acres) and open water (22.46 acres) habitat caused by the construction of the J-3 Levee project. (10acres impacts X 1.5 multiplier equals 15 acres of mitigation) + (22.46 acres of open water X 0.5 multiplier equals 11.23 acres equates to 26.23 acres of mitigation) approximately 216,198.00± cubic yards of material will be excavated and deposited for the construction of terraces.

THESE PLATS ARE TO BE USED EXCLUSIVELY FOR  
THE ACQUISITION OF REGULATORY PERMITS.
