Interested parties are hereby notified that the Office of Coastal Management of the Department of Natural Resources has received the following application for a Coastal Use Permit (CUP) in accordance with the State and Local Coastal Resources Management Act of 1978, as amended, (Louisiana R.S. 49, Sections 214.21-214.41), and the rules and regulations of the Coastal Resources Program. Via this notice, the public is invited to provide comment on the following application.

Additionally, interested parties are hereby notified that applications have been received by the District Engineer for a Department of the Army permit to authorize the following pursuant to: [X] Section 404 of the Clean Water Act (86 Stat. 816; 33 USC 1344) and/or [X] Section 10 of the River and Harbor Act of 1899 (33 USC 403).

Application has also been made to the Louisiana Department of Environmental Quality, Office of Environmental Services for a Water Quality Certification in accordance with statutory authority contained in the Louisiana Revised Statutes of 1950, Title 30, Chapter 11, Part IV, Section 2074 A93) and Provisions of Section 401 of the Clean Water Act (P.O. 95-217).

The official date of the beginning of the public comment period for Coastal Use Permit and Water Quality Certification applications begins on the date of publication of the notice in the official state journal (The Advocate), in accordance with the Rules and Procedures for Coastal Use Permits, §723.C.5.c. The Office of Coastal Management will inform interested parties of the exact date of publication on request.

*Habitat impacts are based on available in-house data and may not represent actual conditions. Field reconnaissance may be required verify extent of impacts.

Approximately NO acres of Essential Fish Habitat (EFH) utilized by various life stages of red drum and panaeid shrimp would be altered or destroyed by this project. This information is provided to initiate federal consultation requirements pertaining to EFH under the Magnuson-Stevens Fishery Conservation and Management Act.

NAME: **PORT MANCHAC - SOUTH TANGIPAHOA PARISH PORT COMMISSION**
163 WEST HICKORY STREET
PONCHATOULA, LA 70454
Attn: Pat Dufrense

LOCATION: **Tangipahoa Parish, LA;** 31450 Hwy. 51 South Manchac, 70421;
(POB bulkhead) Lat. 30° 18' 42"N, Long. -90° 24' 20"W,
(POE bulkhead) Lat. 30° 18' 50"N, Long. -90° 24' 15"W.
coordinates for dredging provided on plats.

DESCRIPTION: Proposed bulkhead construction and maintenance dredging at 31450 Hwy. 51 South in Manchac. Approximately 29,330 cubic yards of native material will be displaced and stacked onsite. Approximately 9,225 cubic yards of that material with an additional 2,306 cubic yards of hauled-in topsoil stacked behind 900' of proposed bulkhead. The remaining excavated material will be stacked 4' high in an irregularly shaped area for future use. No additional dredge or fill is required. *Approximately 3.91 acres of upland and 18.43 acres of non-vegetated water bottom may be directly impacted by the proposed work.

JUN 06 2011

THE APPLICANT MUST SECURE A STATE COASTAL USE PERMIT PLUS A DEPARTMENT OF THE ARMY PERMIT OR A GENERAL PERMIT AUTHORIZATION FROM THE CORPS OF ENGINEERS. INDEPENDENT EVALUATIONS AND DECISIONS WILL BE MADE BY THE OFFICE OF COASTAL MANAGEMENT AND THE CORPS OF ENGINEERS.

State of Louisiana Coastal Use Permit Criteria

Plans for the proposed work are now on file and may be inspected at the Office of the Coastal Management, Department of Natural Resources, LaSalle Building, 617 North 3rd Street, Room 1048, Baton Rouge, LA. Written comments, including suggestions for modifications or objections to the proposed work and stating the reasons thereof, are being solicited from anyone having an interest in the matter. Comments to the State of Louisiana, Office of Coastal Management must be received within 25 days of the date of official journal publication of this notice. Comments may be mailed, faxed or emailed to the contact information listed above or uploaded to the record using our online database found at:

http://sonris-www.dnr.state.la.us/www_root/sonris_portal_1.htm

All comments must contain the applicant's name and appropriate application number and the commenter's full name and contact information.

The decision on whether or not to issue a Coastal Use Permit will be based on an evaluation of the probable impacts of the proposed activity in accordance with the state policies outlined in R.S. 49:214.22. The decision will reflect the national concern for both protection and utilization of important resources. The decision must be consistent with the state program and approved local programs for affected parishes and must represent an appropriate balancing of social, environmental and economic factors. All factors which may be relevant to the proposal will be considered; among these are flood and storm hazards, water quality, water supply, feasible alternative sites, drainage patterns, historical sites, economics, public and private benefits, coastal water dependency, impacts on natural features, compatibility with the natural and culture setting and the extent of long term benefits or adverse impacts.

Certification that the proposed activity will not violate applicable water and air quality laws, standards and regulations will be required before a permit is issued.

State of Louisiana Water Quality Certification Criteria

In accordance with the Joint Public Notice Agreement between the Office of Coastal Management and the Office of Water Resources, notice is hereby given that the applicant has applied to the Louisiana Department of Environmental Quality, Office of Environmental Services for a Water Quality Certification in accordance with statutory authority contained in the Louisiana Revised Statutes of 1950, Title 30, Chapter 11, Part IV, Section 2074 A(3) and provision of Section 401 of the Clean Water Act (P.L. 95-217).

Comments concerning this application can be filed with the Office of Environmental Services within twenty days of this notice to the following address: Louisiana Department of Environmental Quality, Office of Environmental Services, P.O. Box 4313, Baton Rouge, Louisiana 70821-4313.

Additional information is on file with the above office, and may be inspected at any time between 8:00 a.m. and 4:30 p.m. weekdays. Copies may be obtained upon payment of cost of printing.

Corps of Engineers Federal Permit Criteria

The notice and notice policies of the Corps of Engineers - New Orleans District can be found on their web page at <http://www.mvn.usace.army.mil/ops/regulatory/publicnotices.asp>.

Public Hearings

Any person may request, in writing, within the comment period specified in this notice, that a State or Federal public hearing be held to consider this application. Request for public hearings shall state, with particularity, the reasons for holding a public hearing.

Attached Plats: 1) P20101505 Notice Plats 05/23/2011

Corps of Engineers Permit Criteria

The decision whether to issue a permit will be based on an evaluation of the probable impacts, including cumulative impacts of the proposed activity on the public interest. That decision will reflect the national concern for both protection and utilization of important resources. The benefit which reasonably may be expected to accrue from the proposal must be balanced against its reasonably foreseeable detriments. All factors which may be relevant to the proposal will be considered including the cumulative effects thereof; among those are conservation, economics, aesthetics, general environmental concerns, wetlands, historic properties, fish and wildlife values, flood hazards, floodplain values, land use, navigation, shoreline erosion and accretion, recreation, water supply and conservation, water quality, energy needs, safety, food and fiber production, mineral needs, considerations of property ownership and, in general, the needs and welfare of the people.

The U.S. Army Corps of Engineers is soliciting comments from the public, federal, state, and local agencies and officials, Indian Tribes, and other interested parties in order to consider and evaluate the impacts of this proposed activity. Any comments received will be considered by the U.S. Army Corps of Engineers to determine whether to make, modify, condition, or deny a permit for this proposal. To make this decision, comments are used to assess impacts on endangered species, historic properties, water quality, general environmental effects, and other public interest factors listed above. Comments are used in the preparation of an Environmental Assessment and/or an Environmental Impact Statement pursuant to the National Environmental Policy Act. Comments are also used to determine the need for a public hearing and to determine the overall public interest of the proposed activity.

No properties listed on the National Register of Historic Places are near the proposed work. The possibility exists that the proposed work may damage or destroy presently unknown archeological, scientific, prehistorical, historical sites, or data. Copies of this notice are being sent to the State Archeologist and the State Historic Preservation Officer.

Our initial finding is that the proposed work would neither affect any species listed as endangered by the U.S. Departments of Interior or Commerce, nor affect any habitat designated as critical to the survival and recovery of any endangered species.

This notice initiates the Essential Fish Habitat (EFH) consultation requirements of the Magnuson-Stevens Fishery Conservation and Management Act. The applicant's proposal would result in the destruction or alteration of n/a acres of EFH utilized by various life stages of red drum and penaeid shrimp. Our initial determination is that the proposed action would not have a substantial adverse impact on EFH or federally managed fisheries in the Gulf of Mexico. Our final determination relative to project impacts and the need for mitigation measures is subject to review by and coordination with the National Marine Fisheries Service.

If the proposed work involves deposits of dredged or fill material into navigable waters, the evaluation of the probable impacts will include the application of guidelines established by the Administrator of the Environmental Protection Agency. Also, a certification that the proposed activity will not violate applicable water quality standards will be required from the Department of Environmental Quality, Office of Environmental Services, before a permit is issued.

Any person may request, in writing, within the comment period specified in this notice, that a public hearing be held to consider this application. Requests for public hearings shall state, with particularity, the reasons for holding a public hearing.

You are requested to communicate the information contained in this notice to any other parties whom you deem likely to have interest in the matter.

The applicant has certified that the project complies with, and will be conducted in a manner that is consistent with, the Louisiana Office of Coastal Management.
